

SHUBHAM YADAV

Full-Stack Software Engineer | Next.js · TypeScript · Node.js · AI-Powered Web Apps

+91 82879 31492 | shubhamrao14102002@gmail.com | New Delhi, India

[linkedin.com/in/yadav--shubham](https://www.linkedin.com/in/yadav--shubham) | github.com/Shubham-Yadav14 | portfolioshubhamyadav.netlify.app

PROFESSIONAL SUMMARY

Full-stack software engineer with 3+ years of experience (1 full-time role, 4 internships) building production web apps and AI-powered products with Next.js, TypeScript, Node.js, and PostgreSQL. Shipped an AI-powered CRM, an AI interview platform, and a real-time hotel operations system. Strong in RBAC/authentication, WebSocket real-time features, and concurrent backend design.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, Java, C++

Frontend: Next.js, React.js, React Native, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI, REST APIs, WebSockets (Socket.IO), Authentication & Authorization (JWT, OAuth, RBAC)

AI & APIs: OpenAI API, Gemini API, AI Feature Integration, Prompt Engineering, Streaming Responses

Databases & Cloud: PostgreSQL, MongoDB, AWS (S3), Docker, Git, GitHub, LaTeX

Core Concepts: Data Structures & Algorithms, System Design, Concurrency & Async Programming, Real-Time Systems

PROFESSIONAL EXPERIENCE

Quick ERP Software Solutions | Software Developer

Jul 2025 – Present

- Built and deployed a full-stack CRM platform automating employee onboarding, offboarding, and admin workflows for 200+ users.
- Architected role-based access control (RBAC) and Kanban-style task management for secure authorization and workflow tracking.
- Integrated the OpenAI API for automated task summaries and progress reports, cutting manual reporting effort by 4–5 hrs/week.

Tech Stack: Next.js, TypeScript, Node.js, PostgreSQL, OpenAI API

Userology | Software Developer Intern

Jan 2025 – Jun 2025

- Built an AI-powered interview platform (guide generation, transcript analysis, workflow automation), boosting productivity by 20%.
- Engineered a scalable tree-based message versioning system for AI chat histories (branching, editing, deletion, navigation).
- Designed a session manager for parallel AI chat sessions with isolated state, preventing conflicts in concurrent workflows.

Tech Stack: Next.js, TypeScript, Node.js, Express.js, PostgreSQL, AWS S3, JWT, Tailwind CSS

Anchorage | Software Developer Intern

Jan 2024 – Dec 2024

- Developed a hotel operations platform (web + mobile) for booking, guest management, food ordering, and self-check-in.
- Built real-time food ordering and self-check-in with Socket.IO; improved operational efficiency 33%, cut manual workload 40%.

Tech Stack: Next.js, TypeScript, React Native, Node.js, Express.js, PostgreSQL, Socket.IO, Tailwind CSS

Ascella | Software Developer Intern

Oct 2023 – Dec 2023

- Engineered geolocation-based hospital check-ins to reduce manual steps and improve the patient experience.
- Synced web and mobile feature sets for cross-platform consistency, reducing regression issues.
- Built secure, scalable payment APIs for healthcare billing, improving transaction reliability.

Tech Stack: React.js, TypeScript, React Native, Node.js, Express.js, PostgreSQL, Tailwind CSS

Panacee Software Solutions | Software Developer Intern

Jul 2023 – Sep 2023

- Built a hospital management portal for a French client (Medecom), improving online engagement and SEO reach.
- Developed an NGO website for Jeevshakti to increase awareness and support fundraising campaigns.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

PROJECTS

CVMindAI – AI Resume Builder | Next.js, TypeScript, Node.js, MongoDB, OpenAI API, OAuth, JWT, LaTeX

cvmindai.netlify.app

- Built an AI resume builder (100+ users) with customizable LaTeX templates, live PDF preview, code editing, and PDF download.
- Developed a streaming AI chat interface turning natural-language requests into real-time LaTeX updates and live preview.
- Engineered project lifecycle management (archive, restore, soft/hard delete) with MongoDB persistence and OAuth/JWT auth.

QuizMind AI – Real-Time AI Answering System | Next.js, TypeScript, FastAPI, OpenAI API, Gemini API

answermyquiz.netlify.app

- Built a real-time AI quiz-answering system on FastAPI (async), handling concurrent requests with sub-second responses.
- Engineered MCQ-aware prompts with subject-context optimization for accurate, option-only answers.
- Designed a stateless, scalable REST backend that orchestrates OpenAI and Gemini APIs.

EDUCATION

Delhi Skill and Entrepreneurship University, New Delhi

2021 – 2025

B.Tech, Computer Science and Engineering | CGPA: 8.10 / 10

LEADERSHIP & ACHIEVEMENTS

- Secretary, COPs (Competitive Programming Society)** – Led competitive programming initiatives (50+ members).
- Active Member, Training & Placement Student Council** – Coordinated placement activities and student engagement initiatives.
- Competitive Programming** – Solved 286+ problems on LeetCode (leetcode.com/Shubham-Yadav14).
